

# Your Partner for Success

Large or small, Corporate Cost Control's ability to customize an unemployment program unique to each client is what insures program success. At CCC we are excited to let our clients' experiences to speak for themselves.

"Working with CCC has improved our unemployment process and positively affected our bottom line. Their highly knowledgeable staff provides prompt feedback and direction – CCC is a reliable partner, whose opinion we value. Their personalized reports are very helpful in understanding savings and improvement areas and our constant contact with our team keeps us on track to meet our performance goals. We highly recommend CCC."

-Director, Employee Relations  
Blood Systems, Inc.

"From the first time I saw their very easy to read and understand agreement, I have been impressed. Corporate Cost Control has worked hard to build a strong vendor client relationship with us; and they have more than met our expectations. Also as promised, since the execution of our agreement we have had the same knowledgeable, cordial and tenacious account manager. Our win rate is phenomenal and we have reduced the number of hearings by over 60%. I believe any HR Department, hard pressed to show real benefits to their organization, would be wise to consider partnering with Corporate Cost Control.

Director HRD  
Bashas' Inc.

"We are proud to be one of CCC's original customers. We continue to be extremely happy with both their service and with our results. CCC has saved our company time and money with their handling of our unemployment claims.
