

Alabama Special Bulletin

STATE OF ALABAMA TO RELEASE 2019 UNEMPLOYMENT TAX RATES ON WEBSITE 12/04/2018

During recent conversations with representatives from the state of Alabama, we discovered employer unemployment tax rates will be available for download from their website on Tuesday, December 4, 2018. It is important to note the state will **NOT** mail unemployment tax rate notices to employers. Therefore, downloading them from the state's website will be the only means for obtaining them.

The URL for the state of Alabama is <https://labor.alabama.gov>. At the top of the webpage, hover over the link called *Employers*. Click on the first link to pop up which is called *UC Quarterly Report / EFT* which takes you to the eGov login site. At the far right of the page, you will find the eGov Login entry where you can enter a previously established username and password or you can sign up for access.

The image shows two screenshots from the Alabama eGov website. The top screenshot is titled "eGov Login Here" and contains a login form with fields for "User ID:" and "Password:", a "Login" button, and three links: "I forgot my User ID!", "I forgot my password!", and "Help me, please!". The bottom screenshot is titled "New eGov Account" and contains a link that says "Click here to register!" above a small image of a person working at a computer.

If you have problems logging into your account, the state provides a telephone number and email address for assistance.
