Jeff Miller was a client of Heiss, Gibbons & Company (HGC) in 1991, managing his organization's unemployment program. He made the leap into workforce solutions when the owner of HGC noted his attention to detail and interest in the industry and felt he would be an asset to all clients. Jeff quickly got to work learning all aspects of the industry.

HGC had a unique structure. All staff worked as a team to provide services to their clients. This meant that each team member was cross trained in all areas from support services to claims, hearing representation to account program management, benefit auditing to tax support. Jeff's ability to multi task was an obvious asset allowing him the ability to resolve any client issue.

As HGC grew, they felt it necessary to create a new position, Director of Client Services. Jeff's focus on the clients' best interests; experience with both for and non-profit employers of all sizes and industries, along with his knowledge of unemployment both locally and nationally, made Jeff a natural fit for the position.

Jeff and his team strategized on key areas necessary to client satisfaction, resulting in a team able to provide one of the highest client satisfaction and retention rates in the industry.

In 2017, Corporate Cost Control acquired HGC, adding Jeff to our team. HGC's history (founded in 1944) and company's mission:

"To provide the finest Unemployment Cost Control Program to those we are privileged to serve through a Professional, Comprehensive and Personalized approach that will result in minimal unemployment liabilities and costs for our clients." made them a natural fit for CCC.

**Jeff is excited "to continue the commitment to "relationship focused" customer service to the benefit of both existing and newly established clients".** CCC is fortunate to add such a valuable member to our team and we look forward to his contributions to all CCC clients.
